Subject: Request for Cooperation with Law Enforcement Regarding Systematic Misuse of My Microsoft Data

Dear Sir/Madam,

Since 2018 – with increasing intensity since 2020 – I have been a victim of serious digital crimes involving the systematic misuse of my personal data through Microsoft products. This primarily includes:

- My Microsoft Cloud environment (OneDrive/SharePoint);
- My Outlook email account;
- My Windows system;
- My paid Microsoft 365 subscription.

These digital intrusions occur daily, despite implementing multiple security measures, including two-factor authentication and repeatedly changing passwords. The nature and duration of the abuse suggest targeted cybercrime, possibly involving advanced methods and remote access to my digital environment.

I have already contacted both the Dutch Public Prosecution Service (Landelijk Parket) and the Police (Eenheid Oost-Brabant), requesting a criminal investigation. I kindly but urgently ask you to:

1. Internally gather all relevant data, logs, irregularities, and security alerts that may be related to the aforementioned misuse;
2. Provide this information to the Public Prosecution Service and Dutch law enforcement for further criminal investigation;
3. Contact me for additional clarification and/or to provide relevant information that may support this investigation.

If necessary, I can supply a formal authorization for data sharing with the police or the Public Prosecution Service.

I greatly appreciate your cooperation and trust that Microsoft is willing to assist in addressing this serious and prolonged cyber threat.

Sincerely,

Cora Westeink (igbs)

Cora Westerink
