Dear X Support,

Thank you for your response PRIV-120858 dated 29-5-2025. Unfortunately, it does not address my situation, as I have no access to my verified, subscription-based accounts @practicetwiet (<= who made this account?, where and when was it registered?), @IntoBrightLight and @FrozenInFlights due to hacking, as stated in my letter to X International Unlimited Company (Dublin) on May 18, 2025.

These three accounts have been compromised, preventing me from accessing data via the method suggested (<https://support.twitter.com/articles/20172679>). Since 2018, I have faced persistent cyberstalking, escalating to identity fraud and misuse of my account data since 2020. I urgently request:

- Restoration of access to @practicetwietand @IntoBrightLight and @FrozenInFlights.
- Preservation of all account data (e.g., login IPs, activity logs) for both accounts, as requested in my letter.
- Investigation into unauthorized activity, per X's policies on abusive behavior (<https://help.x.com/en/rules-and-policies/abusive-behavior>).

I have reported this to the Dutch Oost-Brabant police and will coordinate with the Landelijk Parket for a formal data request, per your Law Enforcement Guidelines (<https://help.x.com/en/rules-and-policies/x-law-enforcement-support>). Please confirm receipt and escalate this to a specialized team. I can provide ID verification or police reports upon request.

Sincerely,

Cora Westeink (gbs)
